

DIATRON'S CERTIFICATE

Throughout the history of Diatron, quality and reliability have been top priorities.

Through our quality management system, we constantly monitor our performance and identify areas for improvement.

As a result, of these continuous process and design improvements, Diatron's hematology and clinical chemistry products are FDA cleared and carry ISO 9001, ISO 13485, and MSz certifications and CE marking, and our facilities are ISO 9001/13485 certified.
