

## CO2 INCUBATOR HF 240

### Standard features:

- \* 240 liter internal volume
- \* TCD CO2 sensor
- \* soft touch control panel
- \* outer door heating
- \* error warning
- \* auto-start function
- \* inner safety glass door
- \* HEPA filter for CO2
- \* inner safety glass screen (3 pieces)
- \* microprocessor PID temperature controller
- \* temperature sensor made of platinum
- \* temperature range ambient above 5°C to 50°C
- \* deviation (at 37°C)  $\pm 0.1$
- \* air-jacket direct heating system
- \* over-temperature protection
- \* smooth inner casing with rounded corners on all sides made of stainless steel
- \* moist heating disinfection at 90°C
- \* disinfection duration 25 hours
- \* 3 sets of shelves
- \* electric suction pump
- \* cylinder pressure regulator for CO2 cylinders
- \* relative humidity  $\geq 95\%$
- \* Distilled water volume (Max.) 3L
- \* Stackable
- \* 220V, 50Hz
- \* connected load 0.6KW
